

ADMINISTRATIVE - INTERNAL USE ONLY

21 March 1973

MEMORANDUM FOR: Assistant Deputy Director for
Intelligence

SUBJECT: Permission for CRS Consultant to
Use CRS Data in Publication

1. Attached is a memorandum from []
to me concerning publicity for CRS advances in
the state-of-the-art in computer text processing.
He asks two questions:

STAT

- Can []
and CRS consultant) write about CRS accomplish-
ments? [] proposed text is the
second attachment.

STAT

- What should CRS generally do about
publicity (when opportunity shows up) for
computer process progress?

2. I recommend that [] be allowed to
publish and that I inform [] that good
publicity is always good but should be reviewed on
a case-by-case basis. Computer processing methods
are not subject to "source and method" protection
even when pushing "state-of-the-art."
